Projects

- **Online Proctor System**

  Led the development of an Online Proctor Examination project, showcasing strong technical skills in web development, security implementation, and real-time monitoring. Implemented robust proctoring features to ensure a secure and fair examination environment, resulting in the successful conduct of remote exams with high integrity and accuracy.

- **Hotstar Clone**

  Developed a Hotstar clone project, demonstrating expertise in web development, video streaming technologies, and backend architecture. Successfully replicated key features of Hotstar, including live streaming, video-on-demand, and personalized recommendations, resulting in a seamless user experience and positive stakeholder feedback.

- **Fitfinity - Gym website**

  Designed and developed Fitfinity, a gym website created using WordPress, showcasing proficiency in WordPress customization and UI/UX design. Leveraged WordPress plugins and themes to create a visually appealing and user-friendly gym website, resulting in increased online engagement and membership sign-ups.
